Greetings:

Gina may be here (MA + NH) early next week. The front office is seeking short hot issue briefing papers. Kate has started a list (based on Fall ECOS topics). Please let me know if these topics are still 'hot' and if so, update them if they have grown a bit stale. Also let me know if you have additional topics. Thanks.

Regards,

Paul

PS: Kate, thanks for mining the Fall ECOS submissions :)

Good Afternoon –

The Administrator is potentially visiting both Massachusetts and New Hampshire early next week. In the spirit of being proactive, we'd like to begin the process of getting some hot topic information for each state. Final versions will be due by **Friday the 13th at Noon.**

I've started a list of issues that could be included, based on the Fall ECOS topics all of you submitted.

Those that are highlighted are ones that could use an update. If you think others should be included please add them. If some of these topics are no longer "Hot" feel free to remove them. Please give me a call if you have any questions on this.

Thank you!

-Kate
